Summary

Dedicated Cybersecurity Engineer with 2+ years of experience safeguarding critical systems and data. Proficient in Python, Java, C++, SIEM, vulnerability scanners, penetration testing tools, GCP, and AWS. Successfully prevented multiple security breaches in the past year by implementing a robust SIEM and WAF solution and responding swiftly to incidents. Committed to staying at the forefront of cybersecurity trends and technologies, with a focus on innovation and efficiency.

Experience

07/2022 - Present

Infosec Engineer

As a Cybersecurity Engineer at IDfy, I played a pivotal role in safeguarding our organization's critical infrastructure.

- Established a unified security posture through a centralized multi-cloud SIEM platform, enhancing threat detection and response capabilities
- Performed Multiple Vulnerability assessments for company assets
- Developed and maintained custom security scripts and tools to automate routine tasks and improve efficiency.
- Collaborated with development teams to ensure secure coding practices and adherence to security standards.
- Responded to security incidents, conducted root cause analysis, and implemented corrective measures to prevent future occurrences.
- Contributed to a secure and resilient organization by proactively identifying and addressing potential security risks.

01/2022 - 06/2022

Infosec Engineer [Internship]

Gain practical cybersecurity experience as an intern at IDfy, where I contributed to enhancing application security. I performed comprehensive vulnerability assessments (VAPT) on critical applications, identifying and mitigating potential risks.

- Collaborated with development teams to address identified vulnerabilities.
- Provided detailed vulnerability reports with remediation recommendations.
- Enhanced communication and collaboration between security and development teams.

06/2021 - 08/2021

PHP Developer [Internship]

Successfully created a Moodle Plugin that extracts various exam analytics.

- Demonstrated expertise in creating a tailored Moodle [exam portal] plugin to address specific analytics requirements.
- Successfully extracted relevant data from Moodle's database and performed in-depth analysis to derive meaningful insights.
- Identified trends and patterns in student behavior and performance to support targeted interventions and improve overall learning outcomes.

Education

NIIT University

08/2018 - 06/2022

Graduated, B.Tech Computer Science and Engineering
7.8

Kikani Vidhya Mandir [Coimbatore]

04/2017 - 04/2018
